**Quote from
Powered for Life
instructor,
Stan Moore**

"Powered For Life takes the student on an amazing journey of understanding who they are by using their interests, talents, and personal characteristics to take them to future employment. Students in the Powered For Life course learn and use tools to direct them on a path to fulfilling employment.

Along this journey they improve both organizational and public speaking skills that will be valuable in the years ahead leading toward future education and career goals."

Classes are offered at no cost to students!
